

**Associate in Science Degree****Major: ASSOCIATE IN SCIENCE**

Graduates of the Associate in Science (A. S.) programs usually transfer to a senior institution and major in such areas as biology, chemistry, engineering, or pre-medicine. The degree stresses mathematics, natural, and physical sciences, so it is ideal for students who wish to broaden their general knowledge. Students who are currently undecided about their educational or career goals will find transfer courses that apply toward their future major or career choices.

Because transfer requirements vary, students should work with their Academic Advisor and the transfer institution to plan a specific program of study. Visit <http://www.sctrac.org> to view transfer programs at a number of senior institutions.
