

Certificate**OUTBOARD MARINE TECHNOLOGY**

This program covers all components and functions of an Outboard engine including service, diagnostic electrical systems, rigging, propellers, lubrication, lower units, and fuel systems. After completion of the program students will obtain skill sets needed to enter the workforce as an Outboard Engine Technician.

Required Courses

Outboard Marine Technology Requirements

CERTIFICATE REQUIREMENTS: OUTBOARD MARINE TECHNOLOGY

Component	Course Title	Semester Credit Hours
MNT 101	Outboard Marine Engines I	3
MNT 102	Lower Units	3
MNT 103	Rigging	3
MNT 104	Marine Service Operations	4
MNT 105	Marine Fuel and Lubrication Systems	3
MNT 106	Marine Systems Electrical Basics	2
MNT 107	Marine Electrical Systems	2
MNT 108	Marine System Electrical Diagnostics	3
MNT 109	Propellers	2
MNT 110	Outboard Marine Engines II	4
MNT 120	Introduction to Outboard Marine Systems	2
	CREDITS	31
	TOTAL CREDIT HOURS	31
