Certificate

CISCO NETWORKING

The Cisco Networking program prepares students to meet the challenges and opportunities of today's information economy. Students learn by doing as they design and bring to life local- (LAN) and wide-area (WAN) networks. Closely corresponding to current industry standards and technology, the curriculum enables students to acquire hands-on experience with the building blocks of today's global information networks. Based on the Cisco Networking Academy's training guidelines, this program prepares students for the Cisco Certified Networking Associate exam.

Students enrolled in this program are not eligible for Federal financial aid.

Program Information

Course Sequence and Progression Requirements

- A minimum grade of "C" or better is required for all CPT and IST prefixed courses for progression and graduation.
- All CPT and IST courses have a 5-year time limit.

Required Courses

Cisco Networking
