

Associate in Applied Science Degree GOLF & SPORTS TURF MANAGEMENT

Golf Course Management

Golf is wildly popular and Myrtle Beach is the place to be if you love this exciting sport! If you're interested in a career in this fast-growing industry, you should check out HGTC's Golf and Sports Turf Management associate degree program, the only associate degree program of its kind in South Carolina. Graduates of the Golf Course Management Emphasis program are qualified for employment as course superintendent, assistant superintendent, or foreman. Other employment areas include turf management, sod production, park management, and turf products sales positions.
