12. What is the difference between HGTC-ICI and other schools like Johnson & Wales, Art Institute or Le Cordon Bleu? We are a small school investing in the future. In classes, students work in small groups, they do not get lost in the crowd. We take pride in trying to reach students at all levels and having them work to a high level of professionalism. In our program, we are not cooking for other students, the class cooks for themselves and the teacher, this way we can focus on techniques, and critiques. What went right, and what went wrong. Plus, we cook for the public, we have an open to the public restaurant, and bakery. We provide real-world, hands-on experience. I like to compare us to the small chef owned restaurant that is friendly and gets to know it’s customers vs. the big volume restaurant.
