Why am I am required to complete this form? On the FAFSA application you initially submitted, you were not asked by the federal processor to complete the questions regarding asset information. This omission was an error on their part, as you are actually required to provide this information.

Why is this important to me? This will stop you from being awarded financial aid and your bill will not be paid, it will not pay to your student account to generate a refund because your FAFSA is considered incomplete by the Department of Education.

What do I do now? The Financial Aid Office has determined that the easiest way to update your FAFSA is to have you complete this form so that we can process the correction for you. Once we receive the updated FAFSA from the federal processor and all other outstanding requirements have been met (check your requirements on WaveNet), we can award you financial aid.

What happens if I do not submit the form? Your FAFSA is considered incomplete and the Financial Aid Office will not award you financial aid.
