\*Instructor/Department Chair: By signing this schedule change form and allowing the student to enroll in your course after late registration, you are agreeing to assist the student by creating a set of notes for make-up work or in any other manner as needed to assist the student in getting caught up for days missed thus far in the semester. Allowing a student to enroll in a class after late registration is usually not in the best interests of the student and you will be certain to assist the student in any way possible so as to prevent the student from beginning the course at a disadvantage.
