Last Revision: 01-06-2016

President

DISCLAIMER

PURSUANT TO SECTION 41-1-110 OF THE CODE OF LAWS OF SC, AS AMENDED, THE LANGUAGE USED IN THIS DOCUMENT DOES NOT CREATE AN EMPLOYMENT CONTRACT BETWEEN THE EMPLOYEE AND THE AGENCY.

I. Purpose

The following procedure establishes the guidelines by which Horry-Georgetown Technical College employees may request to engage in Telecommuting activities. Telecommuting is a management option and not a universal employee benefit. Additionally, this procedure outlines employee/employer responsibilities under an approved telecommuting arrangement and serves to protect the interest of the College. It is the College's option to allow an employee to telecommute based on the guidelines set forth by the State Board for Technical and Comprehensive Education (SBTCE) and the College procedures.

II. Definition

Telecommuting is a work arrangement whereby selected College employees are allowed to perform some or all of the normal duties and responsibilities of their positions, via the use of computers or other telecommunication equipment, at an alternate work location apart from the employee's primary location of work. Telecommuting may be a part-time or a full-time arrangement.

While telecommuting is traditionally thought of as working from home, other types of telecommuting may apply. The College shall assess each situation on a case-by-case basis.

III. Guidelines

Cabinet will review all telecommuting applications/agreements with final approval or disapproval by the College President. The State Human Resources Division (HDR) requires the identification of a telecommuting coordinator, and the Vice President, Human Resources and Employee Relations will be responsible for coordinating all Telecommuting applications. Employee participation is voluntary. Participation is not an employee right or benefit and may be discontinued at any time by either party. Denial or termination of a telecommuting arrangement is not subject to the employee grievance process. Telecommuting may not be appropriate to all areas of the College, especially those having limited staff and/or those areas requiring in person contact with customers.

IV. Eligibility

The College may identify the job classes or positions with duties or portions of duties considered appropriate for telecommuting.

In order to be eligible to apply for telecommuting, an employee should have completed six months of satisfactory employment with the College. This six-month requirement may be waived at the discretion of the College President based on factors, such as recruiting, residency of potential employees, and anticipated duration. The College may identify a list of skills and characteristics deemed necessary for the employee to be a successful telecommuter. Employees in a warning period of substandard performance are not eligible for telecommuting.

V. Application for Telecommuting

An eligible employee shall complete an application for telecommuting and submit the request to his/her supervisor for approval and through the Human Resources Office to be reviewed by Cabinet with final approval by the College President. The application for Telecommuting shall include the minimum requirements in the State Employee Telecommuting Guidelines. Normal workshop attendance, off-campus meetings, and professional development activities, are excluded and will be handled through other policies and procedures.

Requests for telecommuting will be considered on an individual basis. The College must approve the request prior to the employee beginning to telecommute. Upon approval, the employee agrees via a telecommuter's agreement to follow all requirements of the College's procedure and any additional requirements agreed upon by the College and the employee.

VI. Conditions of Telecommuting

Telecommuting may not be used as a substitute for child, elder, or any type of dependent care. Telecommuters must make or maintain dependent care arrangements outside of the designated work location during the designated telecommuting hours.

Telecommuting may not be used as a substitute for other types of leave such as sick leave, family medical leave, annual leave, faculty non-work days, or workers compensation.

A regular telecommuting schedule to include specific hours and days of telecommuting must be established in writing via the telecommuting application prior to the start of the work arrangement and must be mutually agreed upon by the employee and the appropriate management of the College. Any change to the agreed upon schedule must be approved by appropriate management and documented. Telecommuting does not remove the need for an employee to report to the primary work location as needed by the supervisor. The manager or supervisor should provide reasonable notice when disruption of the telecommuting schedule is necessary; however, in extreme circumstances, the employee may be required to report to the primary office without advance notice.

While working away from the primary office, telecommuting employees must be accessible for communication (e.g. land line or cellular telephone, PDA, pager, e-mail, etc.). The College may include in the Telecommuter's agreement the means and frequency by which regular communication shall be made.

The employee's duties, responsibilities, benefits and conditions of employment remain the same as if the employee were working at the College primary work location. The employee will continue to comply with Federal and state laws and regulations, as well as SBTCE and College policies and procedures, while working at the alternative location. This would include compliance with the State Ethics Act, which prohibits personal gain from the use of College equipment, time, or facilities.

Telecommuting will not adversely affect an employee's eligibility for advancement or any other employee right or benefit. An employee will be compensated for all applicable pay, leave, overtime, and travel reimbursement as if all duties were being performed at the employee's primary work location.

Work hours, overtime compensation (for non-exempt employees), compensatory time, for non-exempt employees, and leave benefits will not change as a result of telecommuting. Requests to work overtime or use sick, annual, or other leave must be approved by the College in the same manner as employees working at the primary work location. An employee shall not work overtime unless authorized in advance by the College or as otherwise authorized by the College's overtime procedure.

Participation in telecommuting should be based on the ability of the employee to perform tasks that can be completed from alternative locations, such as a home office and management assessment of the employee's ability to complete those tasks satisfactorily. Typical functions that work well in a telecommuting situation include but are not limited to: data entry, research, writing projects, financial analysis, spreadsheet preparation, database maintenance, project management, graphic and design work, word processing, editing, computer programming, auditing, and drafting.

All non-exempt employees participating in a telecommuting arrangement must receive advance supervisory approval before working overtime. The employee must follow College work policies and procedures regarding work hours and schedules, including keeping records of time and attendance as if the work were performed at the primary office. The College may require record of hours worked submission for exempt and non-exempt employees who telecommute. The employee agrees to designate a separate workspace at the alternative site for the purposes of telecommuting and will maintain this area in a safe condition, free from hazards and other dangers to the employee and the College's equipment. To ensure the safety of the workspace, the employee agrees to complete and return to the College a Telecommuting Work Space Checklist, which will certify the employee's alternate workspace and compliance with health and safety requirements. The employee must submit this checklist to the College before he/she may begin to telecommute. The employee agrees that the College shall have reasonable access to the workspace for the purposes of inspection of the site and retrieval of College-owned property. The College shall establish the time, frequency, or scope of such inspections.

The alternate work location is considered an extension of the employee's primary work location. Therefore, workers' compensation will continue to exist for the employee when performing official work duties in the alternate workspace during approved telecommuting hours. Any work related injuries must be reported to the employee's supervisor immediately and in accordance with established College reporting procedures.

The College may provide all or part of the equipment and/or services necessary for accomplishing work assignments.

The College will cover the cost of installation, repair, or maintenance of State-owned equipment necessary for accomplishing work assignments. The employee is responsible for any damage to State equipment resulting from gross negligence while in the employee's possession. The employee should not allow family, friends, neighbors, etc. to use State-owned equipment. The College's security controls and conditions for use of the State-owned equipment for the official work location will also apply to alternate work locations. All College records, files, and documents must be protected from unauthorized disclosure or damage and returned safely to the primary work location ensuring the confidentiality of all is essential.

No employee engaged in telecommuting will be allowed to conduct face-to-face, agency-related business at his/her alternate work site. The College will not be liable for injuries or damages to persons or property in the alternate work location except as provided above. Should the use of personally owned equipment be necessary to conduct telecommuting the responsibility for the care, maintenance and repair of the personal equipment shall be addressed by the telecommuting agreement.

VII. Termination of Telecommuting

The College may terminate the telecommuting arrangement at any time without cause.

Upon termination of the telecommuting arrangement or upon termination of employment, all College property, files, documents or other State-owned equipment at the alternative work site must be returned immediately.

Termination of a telecommuting arrangement is not subject to the employee grievance process. Any change of employee status to include but not limited to promotions, transfers, reassignment may negate this telecommuting agreement. This would include but are not limited to the following: employee promotion, transfer, reassignment temporary or otherwise. This does not prohibit the negotiation of a new telecommuting agreement.

VIII. Reporting Requirements

The College must provide to the HRD a report of the utilization of telecommuting. The System Office's Human Resource Services shall coordinate the annual submission of telecommuting information to the Human Resources Division upon request.

ADDENDUM #1

Sample Telecommuting Application

The decision to telecommute should be based on the ability of an employee to work in a setting that may be in the employee's home or other approved area, without immediate supervision. The following tool can be used by an employee as a basis for discussing the option of telecommuting with a supervisor. The employee should submit the application to a supervisor for evaluation and final approval by the agency head or designee.

Please answer the following questions rating your abilities, using the following scale:
