The Shipping/Receiving Manager is responsible for supervising the courier service and also coordinates additional pick up requests and deliveries to locations not designated on the daily route.

The Shipping/Receiving Manager will ensure that the mail is scheduled to be picked up daily. If the mail has not been received on the appropriate campus by the predetermined time, the Shipping/Receiving Manager will be notified in order to facilitate corrective action. In the event that the Shipping/Receiving Manager is not available, all matters concerning these instructions can be forwarded to the Procurement Director's office for appropriate action.
