

ASSOCIATE DEGREE NURSING (ADN and PN)

HGTC's Associate Degree Nursing and Practical Nursing Diploma programs prepare graduates to take the NCLEX-RN and NCLEX-PN exams in order to become licensed to practice as a ADN or PN in SC. South Carolina is a member of a multi-state licensure compact. Graduates who become licensed in SC or another state in which the program meets educational requirements may apply to the state for licensure by endorsement.

For information on compact agreement please visit: <https://www.ncsbn.org/nurse-licensure-compact.htm>.

In order to apply for a multi-state nursing license, a nursing graduate must meet the following criteria:

>reside in an NLC state, and you must declare an NLC state as your primary state of residency.

>be actively licensed as a registered nurse (RN) or licensed professional nurse (LPN)/licensed vocational nurse (LVN).

>meet any requirements for licensure held by your home state, though when practicing, you will also be held to the standards of the state where the patient or practice is located

Please visit the link for the State's Board for more information on its state's licensure requirements.

This Disclosure does not guarantee any particular State licensing or certifying agency will approve your application for certification or professional licensure. The disclosure may not account for changes in state law or regulations made after the date of this Disclosure. If your plans include pursuing professional licensure or certification in your chosen field, in any state other than South Carolina, you should reach out to the state for more information on the credentialing requirements of the state.
